

## Syllabus

### **SH4027.1 Sustainable Forestry in the Southern Baltic Region, 15.0 credits**

#### **Skogsbruk i länderna kring södra Östersjön**

The course is given as course independent of study programme

Syllabus discontinued 29 October 2003

Version 1 in Slukurs. Corresponds to version 1 in Ladok

#### **Syllabus approved**

29 October 1997

The version applies to students admitted from autumn 1999 to autumn 2004

The version is not a module version

#### **Subjects**

Forest Management/Biology

#### **Education cycle**

First cycle

#### **Modules**

<b>Title</b>	<b>Code</b>	<b>Credits</b>
Single module	0101	15.0

#### **Advanced study in the main field**

#### **Grading scale**

Pass / Failed

The requirements for attaining different grades are described in the course assessment criteria which are contained in a supplement to the course syllabus. Current information on assessment criteria shall be made available at the start of the course.

**Language**

Swedish

**Prior knowledge**

The equivalent of: 40 Swedish University Credits (SUC) of basic (A-level) and intermediate (B-level) courses in Biology.

**Objectives**

The student will attain allround knowledge of forestry in countries around the southern Baltic sea region and what the conditions are for forestry in this region. Skills in analysing problems and events in forestry will be practised, thereby providing special knowledge of certain forest conditions in countries around the southern Baltic sea region.

**Content**

The course starts with a summary of the forestry in the countries in this area. The teaching will consist of lectures, self-studies and seminars. The main part of the course will be the project work, where 2-3 students work with a common project, where the task could, for example, be to analyse differences in forest practices between countries. The course will also include study tours. Great emphasis will be placed on presentation of the project work. The presentation can be done as seminars or posters.

**Implementation**

Lectures ca 20 h

Exercises and seminars ca 40 h (compulsory)

Project work (compulsory)

**Examination****Requirements for examination**

Written examination and passed project work.

Passed examination and project work.

- If the student fails a test, the examiner may give the student a supplementary assignment, provided this is possible and there is reason to do so.
- If the student has been granted special educational support because of a disability, the examiner has the right to offer the student an adapted test, or provide an alternative assessment.
- If changes are made to this course syllabus, or if the course is closed, SLU shall decide on transitional rules for examination of students admitted under this syllabus but who have not yet passed the course.
- For the examination of a degree project (independent project), the examiner may also allow the student to add supplemental information after the deadline. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

### **Additional information**

- The right to take part in teaching and/or supervision only applies to the course date to which the student has been admitted and registered on.
- If there are special reasons, the student may take part in course components that require compulsory attendance at a later date. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

### **Responsible department**

Department of Southern Swedish Forest Research Centre

### **Supplementary Information**

*Finalized by:* Programnämnden för skogsvetarprogrammet

*Biology Area:* Other Biology Courses
