

PVG0044, Presentation techniques and current research in veterinary medicine and animal science, 4.0 Hp

Kursplan

Fastställd av: Institutionen för Biomedicin och veterinär folkhälsovetenskap, 2020-01-08

Giltig från och med: 2020V

Utbildningsnivå:

Forskarnivå

Ämne:

- Veterinärmedicin

Språk:

Svenska

Behörighetskrav:

Admitted to a postgraduate program in animal science, biology, veterinary medicine, food science, animal nutrition, veterinary nursing, or related subjects, or to a residency program in veterinary science

Mål:

After completion of the course the PhD-student or veterinary resident shall be able to:

- present their own research project in a pedagogic and scientifically sound way, to a scientific audience as well as a to broader general audience

- actively discuss background, study design and methodology of relevance for the presented project
- identify weaknesses and strengths of presented research projects
- moderate scientific seminars

Innehåll:

The course has a dual format. One part is to actively participate in two workshops (4 hours per workshop) dealing with both oral and poster presentation techniques and the practical construction of a poster. Another part is to actively participate in >20 seminars given in the course seminar series. The seminar series will have weekly seminars during the spring and autumn semesters.

The workshops, will be arranged together with the pedagogic unit at SLU and aims to train the students in both oral and poster presentation techniques for dissemination of their research to different receivers – for example to researchers and to a public audience.

The seminar series is open to all personnel interested, e.g. junior and senior researchers, post-doctoral students, master students and personnel involved in the field of veterinary medicine and animal sciences. At the seminars PhD students/veterinary residents or researchers will in 25 – 30 minutes present on-going research projects. Course participants will also serve as moderator of the seminars introducing the speaker and moderating the following discussion (focused on questions from the audience to the presenting student). The student presenting will also receive scientific and pedagogic feedback on the presentation from other course participants (takes place in a separate closed meeting). In addition, Professors/Researchers from other universities will also be invited to present their latest scientific achievements.

Examinationsformer och fordringar för godkänd kurs:

- Active participation in two of the specific workshops arranged in the course, one on oral presentation and one on poster presentation, which will give training and unique practice in scientific presentation techniques
- Moderating one of the seminars
- Giving feedback on two other course participants presentations
- Performing two oral presentations followed by an open discussion with course participants and other attending staff
- Attendance to at least 20 seminars including the two presentations

- Examinatorn har, om det finns skäl och är möjligt, rätt att ge en kompletteringsuppgift till den student som inte blivit godkänd på en examination.
- Om studenten har ett beslut från SLU om riktat pedagogiskt stöd på grund av funktionsnedsättning, kan examinatorn ge ett anpassat prov eller låta studenten genomföra provet på ett alternativt sätt.
- Om denna kursplan läggs ned, ska SLU besluta om övergångsbestämmelser för examination av studenter, som antagits enligt denna kursplan och ännu inte blivit godkända.
- För examination av självständigt arbete (examensarbete) gäller dessutom att examinatorn kan tillåta studenten att göra kompletteringar efter inlämningsdatum. Mer information finns i utbildningshandboken.

Ansvarig institution/motsvarande:

Kompletterande uppgifter

Övrig information:

- Rätten att delta i undervisning och/eller handledning gäller endast det kurstillfälle, som studenten blivit antagen till och registrerad på.
- Om det finns särskilda skäl, har studenten rätt att delta i moment som kräver obligatorisk närvaro vid ett senare kurstillfälle. Mer information finns i utbildningshandboken.
