Education cycle

Third cycle

Grading scale

Pass / Failed

The requirements for attaining different grades are described in the course assessment criteria which are contained in a supplement to the course syllabus. Current information on assessment criteria shall be made available at the start of the course.

Language

English

Prior knowledge

Admitted as PhD or licentiate student.

Objective, including learning outcomes

The course aims at a presentation of and introduction to central problems and methods in the philosophy of science, and at stimulating the reflection upon and critical discussion on ongoing research, research methods, and their prerequisites.

Content

The course consists of lectures, discussions, oral presentations, study of literature and the writing of a report and an essay.

Requirements for examination

Examination through oral presentations, written report on an exercise and a short critically reflecting essay.
