Prior knowledge

The equivalent of: 20 Swedish University Credits (SUC) of intermediate (B-level) courses in Business administration.

Objectives

The objective of the course is to give the students proficiency in the operational and developmental conditions of co-operatives. Co-operative principals and values are discussed, as well as co-operative history and law. Based on the above topics, management and governance of co-operative businesses are described, including strategic planning, organisation, marketing, etc. Special emphasis is placed on the current conditions of the Swedish farm co-operatives. With this background, the difference between co-operative organisations in different countries and branches is described.

Content

The following topics are included in the course:

- conditions for co-operative business
- institutional conditions in Swedish co-operatives
- co-operative management
- co-operative adaptation.
