5:Pass with Distinction, 4:Pass with Credit, 3:Pass, U:Fail

The requirements for attaining different grades are described in the course assessment criteria which are contained in a supplement to the course syllabus. Current information on assessment criteria shall be made available at the start of the course.

Language

Swedish

Prior knowledge

The equivalent of: 30 credits advanced (D-level) courses in Biology.

Objectives

The student shall after fulfilled course:

- * have deeper knowledge within one of the fields fish biology, aquaculture and fisheries management.
- * be able to structure and perform an independent study within one of these areas.
- * be able to collect, analyze and present the collected information.

Content

The main part of the course is project-oriented and based on supervised self-studies.

Implementation

Lectures, seminars ca. 50 hrs

Individual work ca. 350 hrs

Total ca 400 hrs

Examination**Requirements for examination**

Project work.

Approved written project work. Approved oral presentation of project work.

- If the student fails a test, the examiner may give the student a supplementary assignment, provided this is possible and there is reason to do so.
- If the student has been granted special educational support because of a disability, the examiner has the right to offer the student an adapted test, or provide an alternative assessment.

- If changes are made to this course syllabus, or if the course is closed, SLU shall decide on transitional rules for examination of students admitted under this syllabus but who have not yet passed the course.
- For the examination of a degree project (independent project), the examiner may also allow the student to add supplemental information after the deadline. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

Additional information

- The right to take part in teaching and/or supervision only applies to the course date to which the student has been admitted and registered on.
- If there are special reasons, the student may take part in course components that require compulsory attendance at a later date. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

Responsible department

Department of Wildlife, Fish, and Environmental Studies

Supplementary Information

Finalized by: Programkommitté skog och mark

Biology Area: Zoology

Replacement course: BI0240
