#### Language

Swedish

## **Prior knowledge**

Passed examinations from the full 1st and 2nd years of the Veterinary Programme apart from Population Medicine. Participation in Population Medicine of the 2nd year and all courses of the 3rd year before this, i.e. VM7163.

## **Objectives**

Having completed the course, the student will have obtained:

- An introduction to clinical studies, particularly with regards to the clinical consultation.

## **Content**

With application to the equine and canine species (feline to some extent), the following is included:

- Communication with animal owners, registration of clinical history, clinical examination and record keeping.

## **Implementation**

The course includes case-based group-work, clinical/practical exercises, lectures and demonstrations.

## **Examination**

### **Requirements for examination**

The course examination includes practical tests and written assignments.

Passed examinations and participation in compulsory course components.

- If the student fails a test, the examiner may give the student a supplementary assignment, provided this is possible and there is reason to do so.
- If the student has been granted special educational support because of a disability, the examiner has the right to offer the student an adapted test, or provide an alternative assessment.
- If changes are made to this course syllabus, or if the course is closed, SLU shall decide on transitional rules for examination of students admitted under this syllabus but who have not yet passed the course.
- For the examination of a degree project (independent project), the examiner may also allow the student to add supplemental information after the deadline.

For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

### **Additional information**

The course is integrated with VM7150 Clinical Anatomy.

- The right to take part in teaching and/or supervision only applies to the course date to which the student has been admitted and registered on.
- If there are special reasons, the student may take part in course components that require compulsory attendance at a later date. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

### **Responsible department**

Department of Anatomy and Histology

### **Supplementary Information**

*Finalized by:* Fakultetsnämnden, V-fak
