

Syllabus

BI0083.1 Genome Analysis, 15.0 credits

Genomanalys

The course is given as course independent of study programme

Syllabus discontinued 30 June 2000

Version 1 in Slukurs. Corresponds to version 1 in Ladok

Syllabus approved

4 February 1994

The version applies to students admitted from spring 1999 to spring 1999

The version is not a module version

Implementation

Lectures 50 h
laboratory 110 h
computer labs 35 h
seminars 30 h
examination 8 h

Examination**Requirements for examination**

Written and oral examinations. Completed and approved project work and seminars.

missing

- If the student fails a test, the examiner may give the student a supplementary assignment, provided this is possible and there is reason to do so.
- If the student has been granted special educational support because of a disability, the examiner has the right to offer the student an adapted test, or provide an alternative assessment.

- If changes are made to this course syllabus, or if the course is closed, SLU shall decide on transitional rules for examination of students admitted under this syllabus but who have not yet passed the course.
- For the examination of a degree project (independent project), the examiner may also allow the student to add supplemental information after the deadline. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

Additional information

- The right to take part in teaching and/or supervision only applies to the course date to which the student has been admitted and registered on.
- If there are special reasons, the student may take part in course components that require compulsory attendance at a later date. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

Responsible department

Department of Animal Breeding and Genetics

Supplementary Information

Finalized by: Lantbruksvetenskapliga fakulteten
Biology Area: Other Biology Courses
