Advanced study in the main field

Grading scale

Pass / Failed

The requirements for attaining different grades are described in the course assessment criteria which are contained in a supplement to the course syllabus. Current information on assessment criteria shall be made available at the start of the course.

Language

Swedish

Prior knowledge

Passed examinations from all courses of the 1st, 2nd and 3rd years, and from the courses of Clinical Chemistry and General Medicine, General Surgery, Anesthesiology and Introduction to Clinical Studies of the 4th year of the Study Programme in Veterinary Medicine. Participation in the remaining courses of the 4th year is required.

Objectives

The clinical education gives the student theoretical knowledge of
-common surgical diseases and injuries
-principles of diagnosis, therapy and prophylaxis, and
manual skills up to the level needed for primary surgical attendance of horses.

Content

Equine surgery and hoof diseases.

Implementation

The course comprises clinical/practical training, seminars, lectures and demonstrations.

Examination

Requirements for examination

Oral and written examinations are held during the course.

Granted when examinations are passed and after participation in compulsory parts of the course.

- If the student fails a test, the examiner may give the student a supplementary assignment, provided this is possible and there is reason to do so.
- If the student has been granted special educational support because of a disability, the examiner has the right to offer the student an adapted test, or provide an alternative assessment.
- If changes are made to this course syllabus, or if the course is closed, SLU shall decide on transitional rules for examination of students admitted under this syllabus but who have not yet passed the course.
- For the examination of a degree project (independent project), the examiner may also allow the student to add supplemental information after the deadline.

For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

Additional information

The course is part of Clinical Activities – Sport and Companion Animals, 4th year.

- The right to take part in teaching and/or supervision only applies to the course date to which the student has been admitted and registered on.
- If there are special reasons, the student may take part in course components that require compulsory attendance at a later date. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.
