Advanced study in the main field

Grading scale

Pass / Failed

The requirements for attaining different grades are described in the course assessment criteria which are contained in a supplement to the course syllabus. Current information on assessment criteria shall be made available at the start of the course.

Language

Swedish

Prior knowledge

General entrance requirements for studies at a Swedish college or university.

Objectives

The goal of the course is to provide basic knowledge in fish biology, fish ecology and fisheries management.

Content

The environment of fishes, life cycles of common fish species, fish ecology, theoretical and practical fisheries management, rearing of fish for stocking, to create and manage fisheries management units.

Implementation

The course is conducted as flexible IT-based teaching given with reduced study activity (50%). During the semester the course will have meetings during five weekends.

Lectures, field- and laboratory exercises ca 80 h

Self-studies ca 120 h

Projects work ca 200 h

Examination**Requirements for examination**

Seminars, written and oral presentation of project work. Written exam.

Reported study questions, project work and passed written exam.

- If the student fails a test, the examiner may give the student a supplementary assignment, provided this is possible and there is reason to do so.
- If the student has been granted special educational support because of a disability, the examiner has the right to offer the student an adapted test, or provide an alternative assessment.

- If changes are made to this course syllabus, or if the course is closed, SLU shall decide on transitional rules for examination of students admitted under this syllabus but who have not yet passed the course.
- For the examination of a degree project (independent project), the examiner may also allow the student to add supplemental information after the deadline. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

Additional information

- The right to take part in teaching and/or supervision only applies to the course date to which the student has been admitted and registered on.
- If there are special reasons, the student may take part in course components that require compulsory attendance at a later date. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

Responsible department

Department of Wildlife, Fish, and Environmental Studies
