- to raise understanding of the link between specific elements of education and the holistic view.

## **Content**

- definition, analysis and performance of problem solving in equine studies.
- be able to find and assemble information
- Critical analysis of scientific work.
- seeking contact with appropriate teachers and researchers in the research area.
- oral and written presentation.
- independent production of a report
- basic statistics
- critical process

## **Implementation**

Lectures and seminars 45 hours  
Practicals 15 hours  
Supervised sessions 15 hours  
Scheduled time for unsupervised work 45 hours

## **Examination**

### **Requirements for examination**

Written report, verbal presentation and critical review of others work

Passing the examination.

- If the student fails a test, the examiner may give the student a supplementary assignment, provided this is possible and there is reason to do so.
- If the student has been granted special educational support because of a disability, the examiner has the right to offer the student an adapted test, or provide an alternative assessment.
- If changes are made to this course syllabus, or if the course is closed, SLU shall decide on transitional rules for examination of students admitted under this syllabus but who have not yet passed the course.
- For the examination of a degree project (independent project), the examiner may also allow the student to add supplemental information after the deadline. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

### **Additional information**

Location: Flyinge

- The right to take part in teaching and/or supervision only applies to the course date to which the student has been admitted and registered on.
- If there are special reasons, the student may take part in course components that require compulsory attendance at a later date. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

### **Responsible department**

Department of Anatomy, Physiology and Biochemistry

### **Supplementary Information**

*Finalized by:* Hippologprogrammets programnämnd

*Biology Area:* Other Biology Courses
