

Syllabus

BI0356.1 Microbiology, 4.5 credits

Mikrobiologi

Version 1 in Slukurs. Corresponds to version 1 in Ladok

Syllabus approved

12 April 1996

The version applies to students admitted from spring 1999 to spring 2002

The version is not a module version

Single module	0101	4.5

Advanced study in the main field

Grading scale

Pass / Failed

The requirements for attaining different grades are described in the course assessment criteria which are contained in a supplement to the course syllabus. Current information on assessment criteria shall be made available at the start of the course.

Language

Swedish

Prior knowledge

The equivalent of: 20 Swedish University Credits (SUC) in biology and 10 SUC in chemistry

Objectives

The course presents basic knowledge about microorganisms, especially bacteria and viruses. The techniques of microbiology are practised.

Content

Definitions of microorganisms. The systematics of bacteria. Structure, nutrition and growth of bacteria. Structure and reproduction of viruses. Sterilization and disinfection. Antibiotics. Microorganisms in soil. The role of bacteria in the cycling of elements. Interactions between microorganisms and plants. Bacterial genetics and gene technology.

Implementation

Lectures 18 h

Laboratory work 18 h (compulsory)

Seminars ca 12 h (compulsory)

Examination**Requirements for examination**

Written or oral test and written and oral presentation of laboratory work.

Passed tests, participation in compulsory course components and in course evaluation.

- If the student fails a test, the examiner may give the student a supplementary assignment, provided this is possible and there is reason to do so.
- If the student has been granted special educational support because of a disability, the examiner has the right to offer the student an adapted test, or provide an alternative assessment.

- If changes are made to this course syllabus, or if the course is closed, SLU shall decide on transitional rules for examination of students admitted under this syllabus but who have not yet passed the course.
- For the examination of a degree project (independent project), the examiner may also allow the student to add supplemental information after the deadline. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

Additional information

- The right to take part in teaching and/or supervision only applies to the course date to which the student has been admitted and registered on.
- If there are special reasons, the student may take part in course components that require compulsory attendance at a later date. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

Responsible department

Faculty of Landscape Planning, Horticulture and Agricultural Science

Supplementary Information

Finalized by: Programnämnden för hortonomprogrammet
