

## Syllabus

### **BI0716.1 Viticulture, 7.5 credits**

#### **Vinodling**

The course is given as course independent of study programme

Syllabus discontinued 16 April 2009

Version 1 in Slukurs. Corresponds to version 1 in Ladok

#### **Syllabus approved**

30 November 2006

The version applies to students admitted from autumn 2007 to spring 2008

The version is not a module version

#### **Subjects**

Biology/Agricultural science

#### **Education cycle**

First cycle

#### **Modules**

<b>Title</b>	<b>Code</b>	<b>Credits</b>
Single module	0101	7.5

#### **Advanced study in the main field**

#### **Grading scale**

Pass / Failed

The requirements for attaining different grades are described in the course assessment criteria which are contained in a supplement to the course syllabus. Current information on assessment criteria shall be made available at the start of the course.

## **Language**

Swedish

## **Prior knowledge**

General requirements

## **Objectives**

On completion of the course, the student will have:

- knowledge and an ability for critical analysis of the biological prerequisites for viticulture,
- knowledge of current viticulture with the focus on Europe,
- an ability to discuss qualitative and quantitative aspects within viticulture from a production perspective,
- knowledge of wine production and associated controls.

## **Content**

- History of wine
- Current production in Europe
- Biological prerequisites
- Geological prerequisites
- Climatological prerequisites
- Influence on the environment
- Wine production
- Quality evaluation

## **Implementation**

Lectures approx. 15 hours

Seminars, supervision and presentation approx. 10 hours

Practicals approx. 15 hours

Excursions approx. 10 hours (compulsory)

Exam and evaluation approx 10 hours

Seminars approx 65 hours

Literature studies approx 75 hours

Total approx 200 hours

## **Examination**

### **Requirements for examination**

Written or oral examination plus reporting of practical assignments.

Pass in the examination plus approved practical assignments.

- If the student fails a test, the examiner may give the student a supplementary assignment, provided this is possible and there is reason to do so.
- If the student has been granted special educational support because of a disability, the examiner has the right to offer the student an adapted test, or provide an alternative assessment.
- If changes are made to this course syllabus, or if the course is closed, SLU shall decide on transitional rules for examination of students admitted under this syllabus but who have not yet passed the course.
- For the examination of a degree project (independent project), the examiner may also allow the student to add supplemental information after the deadline. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

### **Additional information**

The course will take place in the evening, the actual timetable will be decided in consultation with the participants.

- The right to take part in teaching and/or supervision only applies to the course date to which the student has been admitted and registered on.
- If there are special reasons, the student may take part in course components that require compulsory attendance at a later date. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

### **Responsible department**

Department of Soil and Environment

### **Supplementary Information**

*Finalized by:* Programutskottet för naturresursprogrammet- biologi och mark och agronomprogrammets mark/växtinriktning

*Biology Area:* Other Biology Courses

*Replacement course:* ÖÄ0313 (ÖÄ0138)
