

## Syllabus

### **BI0240.1 Fish Biology, advanced course, 15.0 credits**

#### **Fiskbiologi, projektbaserad fördjupningskurs**

The course is given as course independent of study programme

Syllabus discontinued 16 November 2007

Version 1 in Slukurs. Corresponds to version 1 in Ladok

#### **Syllabus approved**

15 November 1994

The version applies to students admitted from spring 1999 to autumn 2008

The version is not a module version

#### **Subjects**

Biology

#### **Education cycle**

Second cycle

#### **Modules**

<b>Title</b>	<b>Code</b>	<b>Credits</b>
Single module	0101	15.0

#### **Advanced study in the main field**

#### **Grading scale**

Pass / Failed

The requirements for attaining different grades are described in the course assessment criteria which are contained in a supplement to the course syllabus. Current information on assessment criteria shall be made available at the start of the course.

**Language**

Swedish

**Prior knowledge**

The equivalent of: 20 Swedish University Credits (SUC) of advanced (C-level) courses in Biology including the course Fish Biology, Rearing and Management of Fish Populations, 10 SUC.

**Objectives**

The course is mainly intended as a continuation of the course Fish Biology 10 SUC, and offers the student an opportunity to get deeper insights into fish biology, aquaculture or fisheries management.

**Content**

The main part of the course is project-oriented and based on supervised self-studies.

**Implementation**

Lectures, seminars ca 50 h

Individual work ca 350 h

**Examination****Requirements for examination**

Project work.

Passed project work.

- If the student fails a test, the examiner may give the student a supplementary assignment, provided this is possible and there is reason to do so.
- If the student has been granted special educational support because of a disability, the examiner has the right to offer the student an adapted test, or provide an alternative assessment.
- If changes are made to this course syllabus, or if the course is closed, SLU shall decide on transitional rules for examination of students admitted under this syllabus but who have not yet passed the course.
- For the examination of a degree project (independent project), the examiner may also allow the student to add supplemental information after the deadline.

For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

**Additional information**

- The right to take part in teaching and/or supervision only applies to the course date to which the student has been admitted and registered on.
- If there are special reasons, the student may take part in course components that require compulsory attendance at a later date. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

**Responsible department**

Department of Wildlife, Fish, and Environmental Studies

**Supplementary Information**

*Finalized by:* Lantbruksvetenskapliga fakulteten

*Biology Area:* Other Biology Courses
