Advanced study in the main field

Grading scale

Pass / Failed

The requirements for attaining different grades are described in the course assessment criteria which are contained in a supplement to the course syllabus. Current information on assessment criteria shall be made available at the start of the course.

Language

Swedish

Prior knowledge

Special competence in accordance with the requirements for the Animal Health Care programme.

Objectives

- To provide knowledge of current legislation within the field of animal health care
- To provide basic knowledge of the biology and diseases of experimental animals together with their management and care
- To provide orientation on the ethical problems and considerations arising in connection with experimental animals

Content

- Current Swedish legislation and agreements within the field of animal experiments
- Breeding, handling and nutrition of experimental animals
- Transgenic animals
- Alternative and complementary methods in animal experiments, including ethical problems such as stress, anxiety, pain and suffering

Implementation

The course is held in year 2. Lectures, seminars, study visits.

Examination

Requirements for examination

Written and/or oral examinations

Passed examination and practical tests, and approved accomplishment of required duties. Participation in compulsory parts of the course.

- If the student fails a test, the examiner may give the student a supplementary assignment, provided this is possible and there is reason to do so.
- If the student has been granted special educational support because of a disability, the examiner has the right to offer the student an adapted test, or provide an alternative assessment.

- If changes are made to this course syllabus, or if the course is closed, SLU shall decide on transitional rules for examination of students admitted under this syllabus but who have not yet passed the course.
- For the examination of a degree project (independent project), the examiner may also allow the student to add supplemental information after the deadline. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

Additional information

- The right to take part in teaching and/or supervision only applies to the course date to which the student has been admitted and registered on.
- If there are special reasons, the student may take part in course components that require compulsory attendance at a later date. For more information on this, please refer to the regulations for education at Bachelor's and Master's level.

Responsible department

Department of Animal Environment and Health

Supplementary Information

Finalized by: Programnämnden för djursjukvårdarprogrammet och etologi och djurskyddsprogrammet

Biology Area: Zoology
